*Create the foundation of
all our PRINT-ing solutions*

We manufacture quality web offset presses for newspaper, book, and semi-commercial printers and are associated with industry leaders for years. We are committed to act as a catalyst in innovating and evolving printing machine solution with our firm adherence to uncompromised quality, domain expertise and constant accessibility to our clients.

Benchmarking excellence is what we do each day, at Prakash Webtech Pvt. Ltd. The success story of Prakash Group stands tall on the pillars of futuristic thought processes amalgamated with smart marketing strategies and the desire to innovate. Our endless endeavour towards betterment through systematic approach and technological expertise is no longer a requisite but has been inculcated as a habit. At Prakash we are committed to deliver quality at its highest degree to our customers and that makes us the firm believer of our slogan

About Prakash

Evolution is a process that motivates Prakash Group towards a progressive path of success. Since inception, we have laid emphasis on customer centric approach and superior quality products. Headquartered at Faridabad, India, Prakash provides sustainable customer support round the year through its widespread network of branch offices all over India and abroad.

Our world class infrastructure is the key driver of our quality standards. Our state-of-the-art manufacturing facility designs the smallest component with great precision indicating highest level of quality.

Backed by a dedicated and highly professional team of experts, Prakash has proudly emerged as a leader in the field of manufacturing Web Offset Presses. We have housed some of the finest talent comprising of trained engineers, managers, production specialist and others working symbiotically to deliver quality product to our end users.

Mission

Is to continually innovate, explore, and implement ideas in order to cater our customers with state-of-the art technologies and intelligent printing solution.

Vision

We aspire to be a reckoning force in the industry and use our capabilities, expertise and cumulative knowledge base for the benefit of the individuals and society at large.

Corporate Philosophy

Prakash positions itself as one of the leading manufacturers of web offset presses through hard work, team work, and by abiding to a sustainable corporate philosophy. A successful enterprise sustains every situation and excels in performance because it is supported by competent professionals working passionately together. These talents of the highest calibre share the philosophy and dynamism of the management to deliver a product of unfathomable quality. Our core business philosophy revolves around our customer centric approach and dedication towards providing excellence through integrated printing solutions.

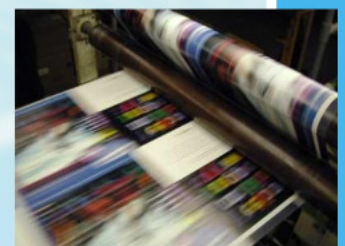

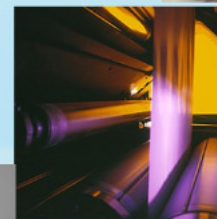

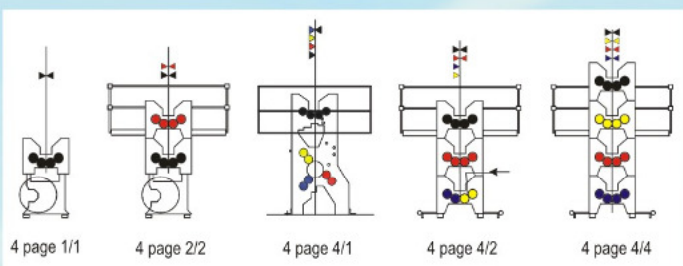

Some highlights of our technical infrastructure:

Component	Machine used
1. Printing unit frames machining	5 axis-Deckel Maho 200P, Germany
2. Cutting cylinder and jaw cylinder	4 axis VMC-Haas VF5, USA
3. Former bars, Cross base	VMC-Fulland Alpha, Taiwan
4. Sleeves	VMC-Kitamura, Japan
5. Blanket cylinders and Plate cylinders	CNC lathe-HMT, India
6. Grinding operation	CNC grinder- HMT, India
7. Inspection	CMM- Carl Zeiss, Germany

Products Portfolio:

Prakash group over the years has associated its name with precision very effectively. While designing all our printing machines and components, accuracy is the basic criteria we set for ourselves.

- **4 high tower** (to print 4+4) – It comprises of four Nos. Blanket to Blanket printing Stack mounted one upon another, for 4-Colour printing on both side of a single web or 2-Colour printing on double web. It provides with perfect registration because of vertical web lead, RCR's and Side Registers Provided in each printing stack.
- **3 colour satellite** (to print 3+0, 2+1) -It comprises of three printing couples surrounding a common impression cylinder which facilitates three colour printing 3 colour unit provides extra multi colour facility with no loss of page capacity.
- **Mono Unit** (to print 1+1) - Available with inbuilt reel stand for minimum web travel and gives excellent print quality. Also available in separate stacked unit, which can be mounted on reel stand.
- **Folder** (to cut and fold) -All the folders can produce broad sheet and tabloid newspapers with optional attachments for magazines/ quarter fold and double parallel/direct fold (with cross slitting/perforation) for book production. Speed available from 15,000 cph to 36,000 cph.

Prakash Edge:

At Prakash, advance technology meets with an easy-to-operate attributes of the press. Robust construction, precision engineering, and quality raw materials differentiate Prakash presses from others in its class. They provide an unequalled combination of highest print quality and cost-effective operation. Some of the key differentiating factors are:

- Sophisticated design of the printing machine for flawless performance.
- Most advanced CAD/CAM software(NX) for design and manufacturing process.
- Implementation of highly accurate manufacturing technologies.
- Multi-million dollar investment in CNC-based manufacturing facilities.
- The Products are highly scalable, user friendly and efficient.
- Optimal material and energy usage creating affordability.
- All the components are manufactured in-house lending highly precise and guaranteed performance
- Stringent quality audit of all products ensures flawless and high performance press.
- The highly able professionals assist the customer right from understanding the requirement to assisting him post sale.
- Modular design and flexible configuration.
- 24 x 7 post sales support and technical assistance by qualified and trained engineers.
